Gary,
Audrey Smith got the regional files a couple of days ago. We just looked through them and found this 2003 drawing. It shows an inlet located 45 feet south and 50 feet east of the northeast corner of the large warehouse. No piping is shown. See attached.
We'll keep looking.
Terry

Terry:

Do you guys have any facility diagrams which show where the sumps are and where they are piped?

Thanks

Gary Moore
